

Student Name : Jeremy Leahy

Git repo :

Glitch url (source) : <https://glitch.com/~ict-gym-app-jeremyleahy>

Glitch url (deployed) : <https://ict-gym-app-jeremyleahy.glitch.me/>

<https://api.glitch.com/git/ict-gym-app-jeremyleahy>

Grade Band	Assessment	Analytics	Member	Trainer	Git
Starter	Test assessments loaded from json file consisting of weight, chest, thigh, upper arm, waist, hips	List of assessments			
Baseline	Assessment model complete. Multiple Assessments associated with single user. Form included to add more assessments in UX	Current Bmi	Member model complete with fields: name, email, password, address, gender, height, starting weight. Single user loaded from json file	None	None
Good	Dashboard shows assessments for logged in user.	Bmi Category	Signup + login form complete allowing new members to join	Trainer account loaded from json, Trainer logs in and can see list of members.	None
Excellent	Comment field included although not functioning		Members can delete individual assessments	Trainers can delete any member	
Outstanding	Date/Time for each assessment included				

Additional Comments: Had issues opening deploying glitch these past few days. Hoping the deployed url is correct

Grade Range	Assessment	Analytics	Member	Trainer	Git
Starter	Test assessments loaded from json file consisting of weight, chest, thigh, upper arm, waist, hips	List of all assessments			
Baseline	Multiple Assessments associated with single user in json file. Form to add more assessments in UX	+Current BMI	Member model: name, email, password, address, gender, height, startingweight. Single member loaded from json file		
Good	Dashboard shows assessments for logged in user.	+BMI Category +deal Body Weight	Signup + Login forms allowing new members to singup Account Settings View allowing user to change details	Trainer Accounts (preloaded from json). Trainer logs in and can comment on any assessment.	
Excellent	includes comment field	+Trend via simple red/green label	Members can delete individual assessments	Trainers can delete any user	Git Repo
Outstanding	Date/Time for each assessment. Assessment always listed in reverse chronological order	- Goal Summary (nmr. achieved/missed)	Members can set goal Show Goal Status prominently on login	Trainer can set Goals for a Member	Git Version History
